

The Great Apple Crunch is coming to our school!

We're participating in the Illinois Great Apple Crunch!

On October 10, 2024 we will be crunching into local apples to celebrate National Farm to School month. This activity will teach our students where food comes from and support healthy eating habits.

We will purchase local apples for our celebration from {a local orchard, our farmers market, etc.}.

This is our {1st, ect.} Apple Crunch! We will be crunching local apples {during lunch, outside as an activity, during an assembly, on a field trip to an orchard etc.}

{School name, added invite to join, additional info, etc.}

You can learn more about the Crunch here:
